Coastal Bend Council of Governments

June 30, 2023

To the Chairman and Board of Directors of the Coastal Bend Council of Governments

The annual comprehensive financial report of the Coastal Bend Council of Governments (the Council) for the year ended December 31, 2022, is hereby submitted. The financial statements are presented in conformity with accounting principles generally accepted in the United States of America (GAAP) and audited in accordance with auditing standards generally accepted in the United States of America by an independent firm of certified public accountants, Collier, Johnson & Woods, P.C.

This report consists of management's representations concerning the finances of the Council. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the Council has established a comprehensive internal control framework that is designed both to protect the Council's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the Council's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the Council's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The independent audit of the financial statements of the Council was part of a broader, federal and state mandated "Single Audit" designed to meet the special needs of federal and state grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal and state awards. These reports are presented in the Single Audit Section.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The Council's MD&A can be found immediately following the report of the independent auditors.

Profile of the Coastal Bend Council of Governments

The Coastal Bend Council of Governments was officially established on March 23, 1966, making it one of the earliest regional councils formed in the state. The organization was brought into being under an inter-county agreement approved by the Commissioners' Courts of the original six member counties – Brooks, Duval, Jim Wells, Kleberg, Nueces and San Patricio. The original agreement was amended, and a revised version became effective on November 14, 1966. By March of 1967, six more counties – Aransas, Bee, Live Oak, Kenedy, McMullen and Refugio and nine cities – Rockport, Beeville, Alice, Kingsville, Corpus Christi, Robstown, Portland, and Mathis had also ratified the agreement. On September 13, 2013, Governor Rick Perry signed an executive order allowing McMullen County to move from the Coastal Bend to the Alamo Area Council of Governments. Today, eleven counties and thirty-one cities comprise the Coastal Bend/State Planning Region 20 an area of 10,273 square miles with a population of nearly 632,822.

The Council is a voluntary association of cities and counties in an eleven-county region centered around the Corpus Christi metropolitan area. It is one of twenty-four COGs in Texas, all legally defined as political subdivisions of the state. They are governmental agencies with legal responsibility for multi-jurisdictional planning in program areas such as emergency communication systems, criminal justice, solid waste management, environmental protection, and homeland security planning in addition to being the Area Agency on Aging, which has the responsibility for providing nutrition and social services for the elderly. They have no taxing authority and no police powers.

The Council is the designated economic development district responsible for economic development planning.

Authorized by the Texas Regional Planning Act of 1965, as amended and codified, the Council is designated as the regional clearinghouse to review and comment upon grant applications submitted by entities throughout the region seeking state or federal funding. In addition, the Council provides technical assistance, service, and training to member governments in administration of area-wide programs. For FY2022, the Council received a grant from Texas Department of Agriculture for technical assistance related to community and economic development. Financial support for these program activities is provided through local dues, state and federal grants that are matched by local monies, and other public and private funds.

The 77-member Board of Directors, the governing body of the Council, meets 11 times a year, usually on the fourth Friday of the month, except in November and December, when the board meets on the second Friday in December. These meetings, as well as those of all advisory committees held at the agency, are open to the public.

Membership in the Council is open to all governmental units in the 11-county Coastal Bend planning region, including counties, cities, and special districts. For county and city governments, dues were twelve cents per capita in 2022, based on census data; a fee of \$125 annually exists for special districts. Each county is allowed one representative for each 20,000 persons or fraction thereof. Each city is allowed one representative for the first 15,000 persons and up to one additional representative for each additional 35,000 persons or fraction thereof. The county population determines the possible votes for that county. If all the voting representatives were present at a Council meeting, there would be 34 total votes possible based upon the latest census (2020). Special districts do not have a vote on the governing board.

The Council's annual budget serves as a guide for financial planning and control. All departments of the Council are required to submit their federal and state program budgets to the finance department on or before the last day in September each year. The finance department uses these program budgets as the starting point for developing the Council's proposed budget.

The finance department presents the proposed budget to the budget committee for review prior to November 30th. The budget committee is required to make a recommendation to the Board of Directors by mid-December. The Board of Directors is required to adopt the original budget by the end of December. The Board made supplemental budgetary appropriations throughout the year, amounts were moved between categories but did not change the net. The appropriated budget is prepared by fund, function, and department. Department heads may make transfers of appropriations within a function, but cannot transfer budgeted amounts between departments within a function. Budget-to-actual comparisons are provided in this report for the general fund and special revenue fund for which an appropriated annual budget has been adopted. The comparisons are presented on pages 20-21 as part of the basic financial statements for the governmental funds.

Local Economy

The Coastal Bend Region includes eleven counties - Aransas, Bee, Brooks, Duval, Jim Wells, Kenedy, Kleberg, Live Oak, Nueces, San Patricio and Refugio counties. The region encompasses a landmass of approximately 10,273 square miles. According to the 2022 Census data, the total Coastal Bend Region population is 632,822, a slight increase from 2021. The Coastal Bend is home to the Port of Corpus Christi which has been in operation since 1926 and has since become the 3rd largest port in the United States, based on total revenue tonnage, and the largest exporter of crude oil.

The Coastal Bend Region continues to recover from COVID and ended 2022 on a positive note. Labor market and business indicators pointed to continued moderate growth with Corpus Christi, the largest metro area for the region, seeing sales tax collections 8 percent over the previous year. The Coastal Bend ended 2022 with 4.6% unemployment as compared to 6% from the previous year. This is still higher than the State (3.9%) and national average (3.5%). The higher State rate was due in part to imbalances between labor supply and demand among local labor markets across the State.

The region showed signs of resilience to an economic slowdown across the state and the nation. Based on data from Dr. Jim Lee at the South Texas Economic Development Center at Texas A&M University Corpus Christi, despite unprecedented economic headwinds associated with rising interest rates, labor shortages and supply chain disruptions, business sales activity has continued to outpace inflation and the housing market has stabilized. The economic and job growth continued to ease as 2022 wrapped up. Inflationary pressures and an uncertain economic outlook weighed on business activity. Much of the industrial development in San Patricio County has created employment opportunities for its neighboring Aransas and Nueces Counties. More than one in three jobs in San Patricio County are filled by nearly 10,000 commuters in the Coastal Bend region. More than half of those commuters are from Nueces County (South Texas Economic Development Center).

Employment growth by industry in the Coastal Bend Region reflects the diversification of the economy. The Coastal Bend Region saw a very slight increase in total jobs from 258,036 (2021) to 259,014 (2022) according to data provided by Workforce Solutions of the Coastal Bend. This increase is supported by a slight increase in the average earrings per job from \$57.5K (2021) to \$60K (2022).

Government leads the region with 18.2% of the jobs; followed by Trade, Transportation and Utilities at 17.5%. The Mining, Logging and Construction sector, which includes oil and gas extraction is at 10.7%. The economic role of the local oil and gas industry can also be seen in the construction sector, which includes pipeline construction and other supporting activities.

Opportunities are ripe for home-based business and e-commerce in the area, based on data provided by the Internal Revenue Service (IRS) on the number of applications for an employer identification number (EIN). Dr. Jim Lee at the South Texas Economic Development Center at Texas A&M University Corpus Christi calls it "an explosion in new businesses". This positive trend can be attributed to the popularity of running a business from home coupled with the opportunity to meet the growing demand of consumer needs as increased demand for home delivery services and online purchases of goods and services have led to the rise in e-commerce for the region. The data further underscores a need for investment in broadband infrastructure to support a work-from home economy as the region embraces the shift. With sufficient infrastructure investments, the Coastal Bend Region is poised to become a leader in e-commerce in the coming years.

Long term financial planning

The Council's general fund expenditures for year ended December 31, 2022, were at 110.23% of the Council's general fund 2022 budgetary expenditures. The Council continues to prepare their next year's budgets based on eight months of current year's actual expenditures and estimates four months of expenditures to come up with twelve months of expenditures which allows the Council to project their annual budget close to actual expenditures. The Council also accounts for any new grants awarded for the next fiscal year, inflation, and new services to be provided.

The Council's 2023 dues structure is based on \$.12 per capita and increases by \$.02 every other year for ten years beginning in 2022. The increase of dues from 2021 was based on \$.10 per capita and is \$25,691. By the end of 2031, the Council will have collected \$1,736,784 in dues from their county/city governments and special districts. The increases are necessary to pay for support staff in the Economic Development program. They were recommended by the Council's budget committee members at the presentation of the Council's 2022 annual budget meeting and approved at the Council's December 2021 Board of Director's Meeting.

Texas Senate Bill 8 of the 2021 87th Legislature 3rd Special Session appropriated \$150,000,000 to the Commission on State Emergency Communications American Rescue Plan Act of 2021 funds for the Next Generation 9-1-1 Service. The funds will be used by the commission for the deployment and reliable operation of next generation 9-1-1 service, including equipment and administrative costs. In 2023, the Council plans to replace their Customer Premise Equipment (CPE) and front room computer systems located at the Public Safety Answering Points (PSAPs) with American Rescue Plan Act of 2021 funds. The Council's finance and administrative department continues to foster transparency and accountability in the financial management of federal and state funds. In addition, the Council's finance and administrative department continues to coordinate, communicate and collaborate with department heads to improve the overall award and administration of financial assistance and to minimize the risk of waste, fraud and abuse.

Relevant financial policies

The Council's General Fund minimum fund balance policy states that it shall maintain a minimum fund balance equivalent to 25% of its operating expenditures budgeted for the current budget year. This amount is equal to three months of the current year's General Fund operating expenditures. The intent of this policy is to ensure cash availability when revenue is unavailable.

The Council's indirect cost allocation plan policy states that the Council shall prepare an indirect cost proposal in compliance with OMB Uniform Guidance, 2 CFR Part 200 Subpart E Cost Principles. The Council's indirect cost allocation plan is used to allocate the administrative and financial management costs of administering grant programs. The administrative indirect costs benefit all grant programs and are pooled in an indirect costs plan for cost-sharing purposes. The indirect costs are allocated to the grant programs via an indirect cost rate to recover the indirect costs incurred.

The Council adopts an annual indirect costs fixed rate with carry-forward, utilizing personnel costs as the base. The difference between the actual indirect costs and the allocated indirect costs is carried forward to the following year as either under or over recovery of indirect costs.

The Council utilizes a central service cost allocation pool for allocating accounting and payroll service fees, reproduction/mail outs services, and management advisory services to the grant programs using number of employees, number of accounts payable invoices processed and direct hours as allocation bases.

The Council's indirect costs allocation plan which includes the central service costs allocation plan is submitted to the Texas Department of Health and Human Service Commission (HHSC) for review and approval as the Council's designated oversight agency.

Major Initiatives

Solid Waste Program

The Coastal Bend Bays and Estuaries Program (CBBEP) was awarded an EPA Trash Free Water grant in 2022. The Council and the Nueces River Authority (NRA) are sub-awardees of this project which ends in 2024. The goal of this three (3) year project is to keep bulk trash from reaching our waterways in the Coastal Bend. The project entitled Up2U PLUS will remove barriers to proper waste disposal (e.g., cost, accessibility) by providing free and easy access to disposal bins, cleaning up existing dump sites and improving community awareness of problems associated with illegal dumping.

The project is an expansion on a successful project called Up2U PLUS from the Nueces River Authority introduced to their watershed in 2009. It has since expanded from the banks of the Nueces River water to the entire state of Texas and is well known by Texans who easily recognize the yellow litter bag.

The Up2U PLUS program will expand the bright yellow coloring of the original Up2U PLUS litter bags onto bright yellow roll-off containers that will collect bulk trash. The same Up2U PLUS empowerment message will be displayed on all parts of the campaign materials and collection receptacles.

The Council will provide support for this project by coordinating all the metal recycling, bulk waste collection and disposal and tire collection and disposal in the rural communities that were selected to participate in the project.

Communities selected will receive two (2) different 10-day long collection events in the spring and winter of a year in the cycle of the project as well as community cleanup events and illegal dump site cleanup events. All activities are coordinated with the cities and counties of the Coastal Bend and with the CBBEP and NRA. Through the partnership of the project, it is hoped that the public, especially rural areas of the Coastal Bend, will take ownership in their water quality management by cleaning up illegal dumpsites and by providing free disposal of commonly dumped waste items such as tires, furniture, and appliances. All of which are detrimental to the health of the environment and are key actors in water pollution across the Nation.

The Council will prepare and submit reports to the CBBEP quarterly and will give presentations to stakeholders of the Coastal Bend Region and to the Board of Directors of the CBBEP and NRA at the end of the three-year project.

Economic Development Program

The Council has served as the Economic Development District (EDD) for the eleven counties of the Coastal Bend Region since 1973. To carry out its economic development activities, the Council obtains an economic planning grant from the Economic Development Administration (EDA) in the U. S. Department of Commerce. The following are key initiatives undertaken in 2022:

One of the goals of the Regional Resilience Partnership signed in 2021 was to add a Flood Manager to the team. The Council signed a Memorandum of Understanding with the Nueces River Authority to leverage their Flood and Wastewater resources to serve our constituents. The Council assisted the Nueces River Authority in procuring a competitive grant from the Texas General Land Office (GLO) in the amount of \$1,000,000 for replacing aging wastewater equipment and for a regional wastewater feasibility study.

Texas Department of Agriculture (TDA) awarded the Council a contract in the amount of \$10,244 to provide technical assistance to Coastal Bend communities on how to apply for Community Development Block Grant (CDBG) funding. The Council held public meetings and surveyed the public to enable the Council's Board of Directors to determine regional priorities for the next round of CDBG funding through the TDA.

Texas Department of Agriculture also allocated over \$700,000 towards identifying needs in Colonias in the Coastal Bend. The Council assisted TDA in setting up an agreement with Brooks County to administer the Colonias Program to ensure the region is properly supported.

The Economic Development Administration named the Council as a Volunteer in Service to America site. The Council's volunteer is working with communities on the Colonias Initiative and Broadband initiatives.

Education

In 2021, the Council was named a partner in the Education to Employment grant awarded by the Trellis Foundation. In 2022, this effort resulted in additional funding from the Ascendium Group for Building Rural Community Learning Systems (BRCLS). The grant provided additional resources to focus on building educational opportunities in Brooks, Jim Wells and Duval Counties.

Regional Resilience Partnership (RRP)

The largest project of the year was the method of distribution for the \$179,547,000 mitigation funding allocated by the GLO for the Coastal Bend Region. These funds were set aside by the state to build resilient infrastructure in preparation for future disasters. The GLO contracted with the Council to allocate the funds based on verifiable data and public input. The Council worked closely with the GLO and also with our partners at the Texas A&M University-Corpus Christi (TAMUCC) Harte Research Institute to develop a solid plan with verifiable data that could be visualized by stakeholders.

GIS

The Regional Resilience Partnership (RRP), a collaboration between TAMUCC – Harte Research Institute and Council, is building a GIS (geographic information system) platform called Geospatial Resilient Economic Development (GeoRED). This is a powerful tool for building resilience to disaster and economic risk. This EDA funded project is currently in year three of a three-year grant for four Coastal Bend counties: Aransas, Bee, Refugio, and San Patricio. In addition, through Texas Commission on Environmental Quality (TCEQ), the RRP secured additional funding to include coastal counties: Nueces, Kleberg, and Kenedy, bringing the project total to \$1.5 million. GIS technology continues to drive infrastructure decisions and the GeoRED project worked closely with regional stakeholders to demonstrate the capacity of the system. The GeoRED System was featured heavily at the Coastal Bend Hurricane Conference. The team has met with the counties included in the EDA grant and the coastal counties included in the TCEQ grant. The website is currently being built, and the data gathered will be used for implementation.

Area Agency on Aging Program

In 2022, the Council received Expanding Public Health Workforce funds to address vaccine hesitancy and to ensure vaccine equity. The Council brought in a part-time staff person to work with community partners regarding the continued need to reach those that had not been vaccinated or need booster shots, and to provide information regarding vaccinations.

A \$6,000 grant was received from the Coastal Bend Community Foundation to be used as match for the Family Caregiver Program and to provide information and education to family caregivers regarding training, respite, and support. The Council is one of four Area Agency on Aging selected by the Texas Association of Regional Council of Governments to receive \$15,000 from the Aetna Insurance Foundation for citizens who reside in rural areas to have the opportunity to get trained on computer literacy.

In 2022, the Council received a grant of \$74,735 from the Health and Human Services Commission (HHSC) through the Medicare Improvements for Patients and Providers Act (MIPPA). The Council also received another MIPPA grant for the Aging and Disability Resource Center in the amount of \$11,874. Both grants will focus on outreach to low-income Medicare beneficiaries that qualify for Low Income Subsidies (LIS) or the Medicare Savings Program (MSP) and Health and Wellness Education.

The Council's National Family Caregiver Support Program (NFCSP) provided numerous virtual and in-person education and training events, support groups, over the phone/in-person consultations, and informal information and assistance contacts with family and professional caregivers. They addressed a vast array of caregiver issues. This included facilitating two support groups for Grandparents and other Relatives Raising children and helping plan the 22nd in-person annual Grandparents and Other Relatives Raising Children Conference, which was attended by approximately 250 grandparents and professionals in September 2022. NFCSP, along with other community partners, assisted in planning the 16th annual Family and Friends Festival in September and the Walk for Memory Event in November, both events supporting area family caregivers.

The Family Caregiver Program continues to hold trainings for family caregivers and utilize the Council's In-House Care Lab for the Virtual Dementia Tour (VDT). The VDT provides sensitive training to caregivers and professionals, giving them a better understanding of the world of a person living with dementia.

The Council continued the Matter of Balance (MOB) Falls Prevention Program. A staff member who is a MOB Master Trainer is also certified as a Tai Chi Instructor with three certifications: Tai Chi for Arthritis, Tai Chi for Fall Prevention, and Chair Tai Chi.

In 2022, two summer camps were organized to support caregivers. One camp, facilitated by Catholic Charities, provided services to twenty caregivers, and the other camp, conducted by Coastal Plains Community Center, provided respite to families in rural areas of the Coastal Bend. The Coastal Plains Community Center camp served eight caregivers and delivered over 1200 hours of respite services for family caregivers of persons with disabilities under the age of sixty. The funds were redirected to provide further in-home respite to family caregivers of persons with disabilities under the age of sixty. The goal is to increase the availability of respite services to family caregivers caring for individuals of any age with any chronic health condition and/or any disability and to increase caregivers' awareness of education and support available to Coastal Bend caregivers.

9-1-1 Program

The Council's 9-1-1 Program operates under a Strategic Plan Budget covering two state fiscal years (biennium). A new biennium started September 1, 2021 and covered the last four months of calendar year 2021. The Commission on State Emergency Communications (CSEC) and regional 9-1-1 efforts are funded by wireline and wireless service fees (\$0.50 per wireline service connection and cell phone). These fees are collected by telephone service providers and are submitted to the Texas State Comptroller. The collected service fees are appropriated back to the CSEC by the legislature and then distributed to the regional planning commissions/councils of government by formula developed by the CSEC.

The Council is responsible for seventeen Public Safety Answering Points (PSAPs) in its regional 9-1-1 plan as well as working with the state and the region under a contract for services between the Commission on State Emergency Communications and the Council. Because Corpus Christi METROCOM answers 9-1-1 calls outside of Corpus Christi and in rural Nueces County, the state dictates that the Council has 18 PSAPs (Seventeen plus a portion of Nueces County). This is because 9-1-1 service fees are collected by telco providers in rural Nueces County and sent to the Comptroller. No funding is provided by the Council for METROCOM operations. The Council is required to monitor METROCOM operations once per year. The Council's 9-1-1 program personnel will continue to monitor seventeen PSAPs quarterly and submit any findings to the CSEC in quarterly performance report.

There are three Emergency Municipal Service Districts within the Coastal Bend Region that are not included under the Coastal Bend Regional 9-1-1 Network. Those are the City of Corpus Christi (METROCOM), the City of Portland and the City of Aransas Pass who provide 9-1-1 services to their citizens as dictated by their individual charters under which service fees are established and collected. These differ from the 50 cent per access line imposed by the Texas Comptroller.

Errors remained in the Council's 9-1-1 database that need to be corrected before proceeding to Next Generation 9-1-1 efforts. During the spring/summer of 2021, the Council contracted with GeoComm to assist in correcting errors in the database. In 2022, the appropriate number of errors were corrected to allow Next-Generation 9-1-1 services.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Coastal Bend Council of Governments for its annual comprehensive financial report for the fiscal year ended December 31, 2021. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

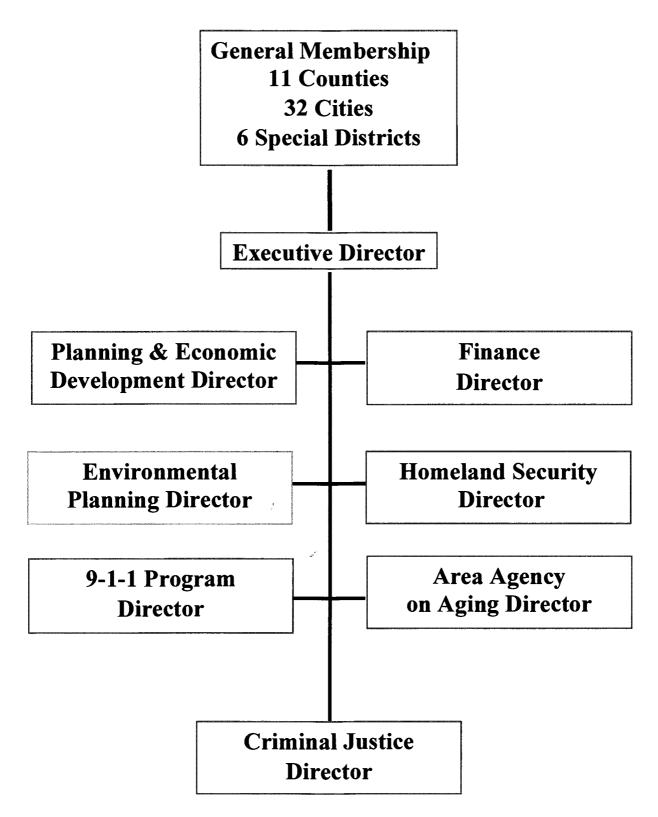

A Certificate of Achievement is only valid for a period of one year. We believe that our current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirement and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report could not have been accomplished without the efficient and dedicated services of the entire staff of the finance and administrative department, the Council's executive staff and our independent auditors, Collier, Johnson & Woods, P.C. We would like to express our appreciation to all members of the finance and administrative department and other staff members who assisted and contributed to the preparation of this report. Due credit also should be given to the Council's chairman and board members for their interest and support in planning and conducting the operations of the Council in a responsible and progressive manner.

Respectfully submitted,

Veronica A. Toomey, CPA Director of Finance/Assistant Executive Director

INDEPENDENT AUDITOR'S REPORT

June 30, 2023

Governing Board of the Coastal Bend Council of Governments

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities and each major fund of the Coastal Bend Council of Governments (the Council) as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the Council's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Council as of December 31, 2022, and the respective changes in financial position and the respective budgetary comparison for the General Fund and Special Revenue Fund, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Council and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Council's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Council's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Council's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5 through 12 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Councils' basic financial statements. The supplemental information listed in the table of contents and the schedule of expenditures of federal and state awards, pages 116 through 123, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and the State of Texas *Uniform Grant Management Standards*, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information lipcedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements directly to the underlying accounting and other records used to prepare the basic financial statements directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental information listed in the table of contents and the schedule of expenditures of federal and state awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 30, 2023, on our consideration of the Council's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Council's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Council's internal control over financial control over fi

Cornir, Johnson & Woods

Management's Discussion and Analysis

As management of the Coastal Bend Council of Governments (the Council), we offer readers of the Council's financial statements this narrative overview and analysis of the financial activities of the Council for the fiscal year ended December 31, 2022. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages I - X of this report.

Financial Highlights

Government-wide financial statements

- The Council's unrestricted net position increased in 2022 by \$129,043. The increase in unrestricted net position is the difference between the governmental excess of revenues over expenses of \$122,552 and the decrease in compensated absences of \$6,491, lease principal payments of \$92,486, and the amortization expense on leased assets of \$91,104. The local revenues available for matching the Council's grants and the general government revenues were \$215,965 and consisted of excess revenues over expenses from the Criminal Justice and Homeland Security technical assistance grant, and the Education to Employment grant of \$50,099, membership dues of \$130,530, other revenue of \$20,024, interest on general fund deposits of \$11,663, and the indirect costs recovery of \$3,649. The Council matched the Texas Department of Health and Human Services Commission grants and the Economic Development Administration grant in the amount of \$87,347, spent \$1,306 in general government and under recovery indirect costs of \$4,760
- Of the Council's total net position \$1,041,853, 86.73% or \$903,615 is unrestricted and 13.27% or \$138,238 is investment in capital assets. The Council's unrestricted net position may be used to meet its ongoing obligation to citizens and creditors.

Governmental funds financial statements

• At year end, the Council's governmental funds reported combined ending fund balances of \$996,185, an increase of \$122,552 from prior year. The local revenues available for matching the Council grants and general government expenditures were \$215,965 and consisted of excess revenues over expenditures from the Criminal Justice and Homeland Security technical assistance grant, and the Education to Employment grant of \$50,099, membership dues of \$130,530, other revenues of \$20,024, interest on general fund deposits of \$11,663, and the indirect recovery costs of \$3,649. The Council matched the Texas Department of Health and Human Services Commission grants and the Economic Development Administration grant in the amount of \$87,347, spent \$1,306 in general government, and under recovered indirect costs of \$4,760. The local revenues of \$215,965 exceeded the general government expenditures of \$93,413, resulted in the increase in the combined fund balance of \$122,552 in the Council's governmental funds financial statements at year end. In the 2022 budget, the Council projected a increase in fund balance of \$80,922.

- Approximately, 89.13% of the fund balance in the General Fund, \$887,941, is *available* to meet the Council's current and future needs. Of the remainder, \$13,720 is nonspendable (for prepaids), and \$94,524 is assigned for matching the administrative costs of the Texas Department of Health and Human Services Commission grants and the Economic Development Administration grant.
- As of the end of the current fiscal year, the unassigned fund balance of the Council's general fund of \$887,941 represented 16.69% of the general fund's total expenditures and 16.31% of the revenues.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Council's basic financial statements. The Council's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the Council's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the Council's assets and liabilities, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Council is improving or deteriorating.

The statement of activities presents information showing how the Council's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., earned but unused vacation leave).

The government-wide financial statements illustrate the functions of the Council that are principally supported by federal and state grants, memberships dues and supportive service fees (*governmental activities*). The governmental activities of the Council include health and welfare, community and economic development, environmental protection, public safety, 9-1-1 emergency communications, and general government.

The government-wide financial statements include only the Council itself (known as the *primary government*), because the Council has no component units.

The government-wide financial statements can be found on pages 13-15 of this report.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Council, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Council are governmental funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the Council's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the Council's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The Council maintains two individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the general fund and the special revenue fund, both of which are considered to be major funds.

The Council adopts an annual appropriated budget for its general fund and special revenue fund. A budgetary comparison statement has been provided for the general fund and special revenue fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 16-21 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 23-36 of this report.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. The Council's assets exceeded liabilities by \$1,041,853 at the close of the most recent fiscal year, a \$29,557 increase over prior year.

Of the Council's net position, 13.27% reflects its net investment in capital assets (e.g., vehicles, equipment, software, and right-to-use leased building and equipment). The Council uses these capital assets to dispatch 9-1-1 calls to the appropriate emergency response units and to make informed decisions by visualizing critical information on a map through the ArcGIS mapping software. These assets are not available for future spending.

Coastal Bend Council of Government's Net Position – Governmental Activities

| | 2022 | 2021 | Variance Positive Negative) |
|-----------------------------------|-----------------|-----------------|-----------------------------------|
| Current and other assets | \$ 2,415,881 | \$ 1,793,604 | \$ 622,277 |
| Capital assets | 199,501 | 391,473 | (191,972) |
| Total assets | 2,615,382 | 2,185,077 | 430,305 |
| Long-term liabilities outstanding | 45,277 | 81,363 | 36,086 |
| Other liabilities | 1,528,252 | 1,091,418 | (436,834) |
| Total liabilities | 1,573,529 | 1,172,781 | (400,748) |
| Net position: | | | |
| Net Investment in capital assets | 138,238 | 237,724 | (99,486) |
| Unrestricted | 903,615 | 774,572 | 129,043 |
| Total net position | \$ 1,041,853 | \$ 1,012,296 | \$ 29,557 |

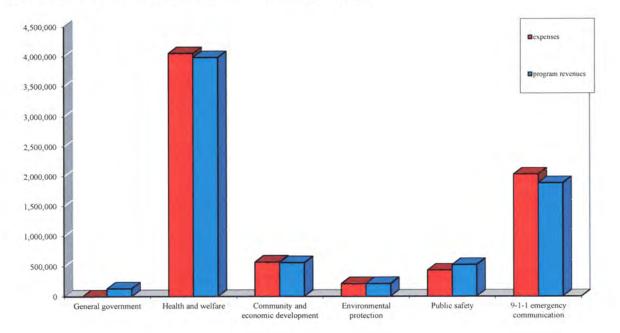

At the end of the current fiscal year, the Council is able to report positive balances in the two categories of net position, for the government as a whole. The same situation held true for the prior fiscal year.

The Council's net position increased by \$29,557 during the current fiscal year. The increase, from the prior year, was primarily attributable to the capital assets additions of \$75,296 were less than depreciation expense of \$267,268 by \$191,972. Also, the increase in revenues over expenses of \$122,552 and the decreases in compensated absences of \$6,491 and leases payable of \$92,486 attributed to the increase in net position.

Governmental activities. Governmental activities' revenues and expenses were matched as noted in the graph below. In the general government, revenues include indirect costs reimbursements.

Expenses and Program Revenues - Governmental Activities

Revenues by Source - Governmental Activities

Financial Analysis of the Government's Funds

As noted earlier, the Council uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the Council's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Council's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the Council's general funds reported an ending fund balance of \$966,185, an increase of \$122,552 in comparison with the prior year. The increase in the general fund's fund balance was due to the Council's local revenues of \$215,965 exceeded the Council's cash match and general government expenditures of \$93,413 by \$122,552. The local revenues consisted of membership dues of \$130,530, excess grant revenues over expenditures in the amount of \$50,099, other revenue and interest of \$31,687 and indirect costs recovery of \$3,649.

General Fund Budgetary Highlights

There were no amendments to the original budget. The actual increase in the fund balance at year end was greater than the budgetary amount by \$42,854. The Council provided nutrition services and rent and utilities assistance for the elderly which was budgeted for fiscal year 2022 and overspent the budget by \$332,959.

Capital Asset and Debt Administration

Capital assets. The Council's investment in capital assets for its governmental activities as of December 31, 2022, amounts to \$138,238 (net of accumulated depreciation). This investment in capital assets includes vehicles, equipment, and software, for the 9-1-1 system and emergency management's first responders and right-to-use leased equipment and building. The decrease \$191,972 in capital assets was due to capital assets additions of \$75,296 not in excess of depreciation expense of \$267,268.

Coastal Bend Council of Government's Capital Assets (Net of Depreciation) Governmental Activities

| | 2022 | 2021 | Variance Positive (Negative) |
|----------------|---------------|---------------|--|
| Capital Assets | \$ 199,501 | \$ 391,473 | \$ (191,972) |

Additional information on the Council's capital assets can be found in note III.C on page 32 of this report.

Long-term Debt. The Council entered into three leases for capital equipment and building for \$330,853. The leases were offset by the regularly scheduled principal reductions on the existing outstanding debt in the amount of \$61,263. Additional information on the Council's outstanding debt can be found in note III.E on pages 33-34 of this report.

| Leases Payable | \$ 61,263 | \$ | 153,749 | \$ 92,486 |

2023 Operating and Pass-through Budgets

The Council's 2023 adopted budget reflects an estimated increase in total fund balance of \$44,688 in the general fund. The general fund's budgetary expenditures, for federal and state programs, increased by 10% compared to actual 2022 expenditures.

The funding levels for all programs could change if additional funding becomes available. This was in accordance with the appropriated funding levels at the time the budget was prepared.

Requests for Information

This financial report is designed to provide a general overview of the Coastal Bend Council of Governments' finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed:

COASTAL BEND COUNCIL OF GOVERNMENTS RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED DECEMBER 31, 2022

| Net change in fund balances - governmental fund | \$ 122,552 |
|--|---------------|
| Amount reported for governmental activities in the statement of activities is different because: | |
| Total governmental funds reports capital outlays as expenditures. However, in the statement of activities the cost of capital assets is allocated over their estimated useful lives and | |
| reported as depreciation expense. In the current period, capital outlays were \$75,296 and depreciation was \$267,268. | (191,972) |
| Leases issued provide current financial resources to governmental funds, but increase long-term | |
| liabilities in the Statement of Net Position. Lease principal and interest payments are an | |
| expenditure in the governmental funds, but the principal payments reduces the long-term | |
| liabilities in the Statement of Net Position. | 92,486 |
| Some expenses reported in the statement of activities do not require the use of current | |
| financial resources and, therefore are not reported as expenditures in governmental | |
| funds. Compensated absences decreased by \$6,491. | 6,491 |
| Change in net position of governmental activities | \$ 29,557 |
| - | |

Notes to the Financial Statements

December 31, 2022

I. Summary of Significant Accounting Policies

A. Reporting entity

The Coastal Bend Council of Governments (the Council) operates as a regional planning agency under the agreement dated November 1966 and subsequently amended, between member counties in South Texas. The powers of the Council are granted and described in Chapter 391, Regional Planning Commissions, and the Local Government Code.

The membership of the Council consists of Aransas, Bee, Brooks, Duval, Jim Wells, Kenedy, Kleberg, Live Oak, Nueces, Refugio, and San Patricio Counties, and various political jurisdictions within these counties. The Board of Directors, who are elected each year by the political jurisdiction they represent, governs the Council.

The basic financial statements of the Council have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

As required by generally accepted accounting principles, these financial statements solely present the Council's financial activities. No other entities are included in the Council's reporting entity because no other entities have significant operational or financial relationships with the Council.

B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. All internal balances in the statement of net position have been eliminated. *Governmental activities* are supported by membership dues, and federal and state grants.

The government-wide Statement of Activities demonstrates the degree to which both direct and indirect expenses of the various functions and programs of the Council are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or identifiable activity. *Indirect expenses* for administrative overhead are allocated among the functions and activities using a full cost allocation approach and are presented separately to enhance comparability of direct expenses between governments that allocate direct expenses and those that do not. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a function and 2) grants and contributions that are restricted to meeting the operational requirement of a particular function. Other items not properly included among program revenues are reported instead as *general revenues*.

Major individual governmental funds are reported as separate columns in the fund financial statements.

Notes to the Financial Statements

December 31, 2022

C. Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Membership dues are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources* measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Council considers revenues to be available if they are collected within 90 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred. However, expenditures related to compensated absences, principal and interest expenditures on lease liabilities, and claims and judgments are recorded only when payment is due. General capital asset acquisitions, including entering into contracts giving the Council the right to use leased assets, are reported as expenditures in governmental funds. Leases issued are reported as other financing sources.

General fund grant resources and supportive services fees are susceptible to accrual and recognized as revenues to the extent of qualifying expenditures recorded for the individual programs since the Council is only reimbursed for qualifying expenditures incurred for grant and contract purposes. Membership dues become measurable and available when cash is received by the Council and are recognized as revenue at that time.

The Council reports the following major governmental funds:

The general fund is used to account for all financial resources of the Council not accounted for in other funds. The general fund's financial resources consist primarily of resources that are restricted to expenditures for specified grant purposes. These restricted resources are not accounted for in a special revenue fund because the Council is not legally or contractually required to maintain separate funds and the applicable grant requirements were satisfied through maintaining separate accounts within the general fund.

The 9-1-1 network program accounts for the activities related to maintaining the 9-1-1 equipment and databases needed to dispatch 9-1-1 calls and is funded by the monthly .50 per access line charged to both land and wireless line. Access lines are collected by the telephone companies and remitted to the State of Texas Commission on State Emergency Communications who then remits them to the Council.

Notes to the Financial Statements

Recent Accounting Pronouncements

GASB 94 Public-Private and Public-Public Partnerships and Availability Payment Arrangements – The primary objective of this statement is to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). As used in this statement, a PPP is an arrangement in which a government (the transferor) contracts with an operator (a governmental or nongovernmental entity) to provide public services by conveying control of the right to operate or use a nonfinancial asset, such as infrastructure or other capital asset (the underlying PPP asset), for a period of time in an exchange or exchange-like transaction. Some PPPs meet the definition of a service concession arrangement (SCA), which the Board defines in this statement as a PPP in which (1) the operator collects and is compensated by fees from third parties; (2) the transferor determines or has the ability to modify or approve which services the operator is required to provide, to whom the operator is required to provide the services, and the prices or rates that can be charged for the services; and (3) the transferor is entitled to significant residual interest in the service utility of the underlying PPP asset at the end of the arrangement.

This statement also provides guidance for accounting and financial reporting for availability payment arrangements (APAs). As defined in this statement, an APA is an arrangement in which a government compensates an operator for services that may include designing, constructing, financing, maintaining, or operating an underlying nonfinancial asset for a period of time in an exchange or exchange-like transaction.

The statement requires that PPPs that meet the definition of a lease apply the guidance in Statement No. 87, Leases, as amended, if existing assets of the transferor that are not required to be improved by the operator as part of the PPP arrangement are the only underlying PPP assets and the PPP does not meet the definition of an SCA. This statement provides accounting and financial reporting requirements for all other PPPs; those that either (1) meet the definition of an SCA or (2) are not within the scope of Statement 87, as amended (as clarified by this Statement). The PPP term is defined as the period during which an operator has a noncancellable right to use an underlying PPP asset, plus, if applicable, certain periods if it is reasonably certain, based on all relevant factors, that the transferor or the operator either will exercise an option to extend the PPP or will not exercise an option to terminate the PPP.

This statement did not have an impact on the Council's financial statements because the Council did not have any Public-Private or Public-Public and Availability Payment Arrangements.

GASB 96 Subscription-Based Information Technology Arrangements- This Statement provides guidance on the accounting and financial reporting for subscription based information technology arrangements (SBITAs) for government end users (governments). This Statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset, an intangible asset and a corresponding liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. To the extent relevant, the standards for SBITAs are based on the standards established in Statement No. 87, Leases, as amended.

Notes to the Financial Statements

December 31, 2022

A SBITA is defined as a contract that conveys control of the right to use another party's (a SBITA vendor's) information technology (IT) software, alone or in combination with tangible capital assets (the underlying IT assets), as specified in the contract for a period of time in an exchange or exchange-like transaction.

The subscription term includes the period during which a government has a noncancellable right to use the underlying IT assets. The subscription term also includes periods covered by an option to extend (if it is reasonably certain that the government or SBITA vendor will exercise that option) or to terminate (if it is reasonably certain that the government or SBITA vendor will not exercise that option).

Under this statement, a government generally should recognize a right-to-use subscription asset, an intangible asset and a corresponding subscription liability. A government should recognize the subscription liability at the commencement of the subscription term which is when the subscription asset is placed into service. The subscription liability should be the initially measured at the present value of subscription payments expected to be made during the subscription term. Future subscription payments should be discounted using the interest rate the SBITA vendor charges the government, which may be implicit, or government's incremental borrowing rate if the interest rate is not readily determinable. A government should recognize amortization of the discount on the subscription liability as an outflow of resources (for example, interest expense) in subsequent financial reporting periods.

The subscription asset should be initially measured as the sum (1) the initial subscription liability amount, (2) payments made to the SBITA vendor before commencement of the subscription term, and (3) capitalizable implementation costs, less any incentives received from the SBITA vendor at or before the commencement of the subscription term. A government should recognize amortization of the subscription asset as an outflow of resources over the subscription term.

This statement did not have an impact on the Council's financial statements because the Council did not have any contracts for a subscription-based information technology arrangement (SBITA).

D. Assets, liabilities, deferred inflows of resources and net position or equity

1. Deposits and investments

The government's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Statutes authorize the Council to invest funds only in public fund investment pools meeting the requirements of Sections 2256.016 - 2256.019 of the Public Funds Investment Act.

Notes to the Financial Statements

December 31, 2022

Public funds investment pools in Texas ("Pools") are established under the authority of the Interlocal Cooperation Act, Chapter 79 of the Texas Government Code, and are subject to the provisions of the Public Funds Investment Act (the "Act"), Chapter 2256 of the Texas Government Code. In addition to other provisions of the Act designed to promote liquidity and safety of principal, the Act requires Pools to: 1) have an advisory board composed of participants in the pool and other persons who do not have a business relationship with the pool and are qualified to advise the pool; 2) maintain a continuous rating of no lower than AAA or AAA-m or an equivalent rating by at least one nationally recognized rating service; and 3) maintain the market value of its underlying investment portfolio within one half of one percent of the value of its shares. Texpool is rated an AAA-m money market fund by Standard & Poor's. Investments in public investment pools are carried at amortized costs. The Council does not have any investments that are required to be reported at fair value.

Note III.A. includes detail information related to the Council's actual deposits and investments.

2. Receivables and payables

All outstanding balances between funds are reported as "due to/from other funds."

3. Prepaid items

Certain payments to vendors reflect costs applicable to the future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. In the governmental funds, expenditures for prepaid items are recognized when incurred (purchase method).

4. Capital assets

Capital assets, which include vehicles, equipment, and software, are reported in the government-wide financial statements. Capital assets are defined by the Council as assets with an initial, individual cost of \$5,000 or more and an estimated useful life in excess of two years. Such assets are recorded at cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Vehicles, equipment, and software are depreciated using the straight-line method over estimated useful lives of three to seven years. The right-to-use leased equipment and building are amortized over the shorter of the leased asset or lease term. The Council revised its estimated useful life for vehicles from three years to seven years due to the number of years the Council retains its vehicles beyond its useful life for use within the city limits. Rental vehicles are used after the useful life of the vehicles for business trips outside of the city limits.

The nonrecurring costs for 9-1-1 services are amortized over three to seven years. This is the useful life of the equipment associated with the service.

Notes to the Financial Statements

December 31, 2022

5. Compensated absences

It is the Council's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the Council does not have a policy to pay any amounts when employees separate from service with the Council. All vacation pay is accrued when incurred in the government-wide fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example as a result of employee resignations and retirements.

6. Long-term obligations

In the government-wide financial statements, long-term obligations related to governmental activities are reported as liabilities in the statement of net position.

7. Fund balances

Fund Balance Classifications:

The *nonspendable* fund balance includes the portion of net resources that cannot be spent because of their form or because they must be maintained intact. Resources not in spendable form include prepaid items.

The *restricted* fund balance includes net resources that can be spent only for the specific purposes stipulated by constitution, external resource providers (creditors, grantors, contributors), laws and regulations of other governments, or through enabling legislation.

The *committed* fund balance includes spendable net resources that can only be used for specific purposes pursuant to constraints imposed by formal Council resolutions no later than the close of the fiscal year. Those constraints remain binding unless removed or changed in the same manner employed to previously commit those resources.

The *assigned* fund balance includes amounts that are constrained by the Council's intent to be used for specific purposes, but are neither restricted nor committed. The Board of Directors, through a resolution, named the Executive Director as the official authorized to assign funds.

The Council's grant agreement with the Texas Department of Health and Human Services Commission requires a 25% match and the Economic Development Administration grant agreement requires a 20% match. The amount of \$94,524 was reported as assigned fund balance authorized by the Council's Executive Director for the purpose of matching grant programs.

The *unassigned* fund balance represents spendable net resources that have not been restricted, committed, or assigned to specific purposes. The general fund is the only fund that reports a positive unassigned fund balance amount.

Notes to the Financial Statements

December 31, 2022

When expenditures are incurred for purposes noted in the unrestricted fund balances classifications, the order of spending is first committed fund balance, then assigned fund balance, and last of all, unassigned fund balance.

8. Minimum Fund Balance Policy

It is the desire of the Council to maintain an adequate General Fund balance to maintain liquidity. The Council has adopted a financial standard to maintain a General Fund minimum fund balance of 25% of budgeted expenditures. The Council has met the minimum fund balance at year end.

9. Leases

The Council is a lessee for two noncancellable leases of equipment and a noncancellable lease of a building. The Council recognizes a lease liability and an intangible right-to-use lease asset (lease asset) in the government-wide financial statements. The Council recognizes lease liabilities with an initial, individual value of \$5,000 or more. At the commencement of a lease, the Council initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life.

Key estimates and judgements related to leases include how the Council determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The Council uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the Council generally uses an estimated incremental borrowing rate, in the year of commencement, as the discount rate for leases.
- The lease term includes the noncancellable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments.

The Council monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Lease assets are reported with other capital assets and lease liabilities are reported with long-term debt on the statement of net position.

10. Use of Estimates

The preparation of basic financial statements in conformance with GAAP requires management to make estimates and assumptions that affect the amount reported in the basic financial statements and accompanying notes. Actual results may differ from those estimates.

Notes to the Financial Statements

December 31, 2022

II. Stewardship, compliance, and accountability

A. Budgetary information

The Council's annual budget is a management tool that assists its users in analyzing financial activity for its calendar year. The Board of Directors adopted a 2022 appropriated budget prepared on the modified accrual basis of accounting for the general fund and special revenue fund. Budgetary comparisons presented for the general fund and special revenue fund in the governmental fund financial statements are in accordance with (GAAP). All annual appropriations lapse at calendar year end. The Board of Directors approves any amendments to the budget.

The appropriated budget is prepared by fund, function and department. Department heads may make transfers of appropriations within a function but cannot transfer budgeted amounts between departments within a function. All functions have one department except for the Public Safety function. It has two departments which are the Criminal Justice program and the Homeland Security Program. The legal level of budgetary control is the department level. There were no amendments made to the budget.

The Council's primary general fund funding sources are federal and state grants and local contracts, which have fiscal periods that may or may not coincide with the Council's calendar year. These grants and contracts normally are for a twelve-month period; however, they can be awarded for periods shorter or longer than twelve months. Because of the Council's dependency on federal, state and local budgetary decisions, the revenue budget is based upon the best available information as to potential sources of funding. The Council's general fund annual budget differs from that of a city or county government in two respects: (1) the uncertain nature of grant and contract awards from other entities and (2) conversion of grant and contract budgets to a calendar year basis. The resultant annual budgets are subject to constant change within the calendar year due to:

- * Increase/decrease in actual grant or contract awards from those estimated;
- * Changes in grant or contract period;
- * Unanticipated grant or contract awards not included in the budget; and
- * Expected grant or contract awards, which fail to materialize.

B. Excess of expenditures over appropriations

For the year ended December 31, 2022, expenditures exceeded budget at the function level in the general fund as follows:

| A 401 721 | Excess |
|---------------------------------|---------------------------------|
| Environmental Protection 48,340 | \$ 401,731 48,340 110,331 |

Notes to the Financial Statements

December 31, 2022

The over expenditures in the health and welfare programs were due to the increase in Title III C2 funds and Disaster Flex IIIB funds spent for the home delivered meals. The over expenditures in the environmental protection programs were due to the Up2U PLUS Project funds received to prevent trash from reaching the coastal waterways by providing dumpsters to prevent illegal dumping. The over expenditures in the public safety programs were due to the funds received for COVID-19 supplies and public safety equipment.

III. Detailed notes on all funds.

A. Deposits and investments

Deposit and Investment Risk Disclosures

<u>Custodial credit risk – Deposits.</u> Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The Council's deposits at year-end were entirely insured by federal depository insurance or were collateralized with securities held by the Council's agent in the Council's name. This is in compliance with the Council's policy. The carrying amount of cash deposits at December 31, 2022 were \$953,254.

Pool investments held in TexPool are not subject to custodial credit risk because they are not evidenced by securities that exist in physical or book entry form. The carrying amount of TexPool is \$29,270 which is included in cash and cash equivalents and due on demand.

Pool investments' interest-rate risk is based on the average maturity of the pool's investments.

B. Receivables and unearned revenue

Receivables as of year-end for the Council's individual major funds are as follows:

| | | Special |
|---------------------------|------------------------|----------------|
| | General | <u>Revenue</u> |
| Due from state government | \$ 1,241,131 \$ | 168,333 |
| Due from employee | 647 | |
| Total receivables | \$ <u>1,241,778</u> \$ | 168,333 |

Governmental funds delayed revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of *unearned revenue* reported in the governmental funds were as follows:

Notes to the Financial Statements

December 31, 2022

| Unearned revenue: | |
|---|-------------------|
| Elderly Programs | \$ 39,038 |
| 9-1-1 Program | 9,376 |
| Solid Waste Program | 97,824 |
| Other Programs | 37,797 |
| Total unearned revenue for governmental funds | \$ <u>184,035</u> |

In the governmental-wide financial statements, this revenue is unavailable and recorded as unearned revenue.

C. Capital assets

Capital asset activity for the year ended December 31, 2022 was as follows:

| | Beginning | | | | | | |
|------------------------------------|-----------------|----|-----------|----|-----------|----|--------------|
| | Balance | I | ncreases | D | Decreases | En | ding Balance |
| Governmental Activities | | | | | | | |
| Capital assets, being depreciated: | | | | | | | |
| Vehicles | \$ 20,033 | \$ | - | \$ | - | \$ | 20,033 |
| Equipment & Software | 1,940,468 | | 75,296 | | (34,256) | | 1,981,508 |
| Right to use Leased Building and | | | | | | | |
| Equipment | 330,853 | | - | | - | | 330,853 |
| 9-1-1 system Nonrecurring costs | 420,550 | | - | | (420,550) | | - |
| Total capital assets, being | | | | | | | |
| depreciated | \$ 2,711,904 | | 75,296 | \$ | (454,806) | \$ | 2,332,394 |
| Less accumulated depreciation for: | | | | | | | |
| Vehicles | (17,767) | | (2,266) | | - | | (20,033) |
| Equipment & Software | (1,700,888) | | (173,898) | | 34,256 | | (1,840,530) |
| Right to use Leased Building and | | | | | | | |
| Equipment | (181,226) | | (91,104) | | - | | (272,330) |
| 9-1-1 system Nonrecurring costs | (420,550) | | | | 420,550 | | |
| Total accumulated depreciation | (2,320,431) | | (267 268) | | 454,806 | | (2,132,893) |
| Total capital assets, being | (2,320,431) | | (267,268) | | +34,000 | | (2,132,073) |
| depreciated, net | \$ 391,473 | \$ | (191,972) | \$ | - | \$ | 199,501 |

Depreciation expense was charged to functions of the primary government as follows:

| Governmental Activities: | |
|--|----------------|
| 9-1-1 emergency communications | \$ 147,166 |
| General government | <u>120,102</u> |
| Total depreciation expense-governmental activities | <u>267,268</u> |

Notes to the Financial Statements

December 31, 2022

D. Interfund receivables and payables

The composition of interfund balances as of December 31, 2022, is as follows:

| Receivable Fund | Payable Fund | Amount |
|-----------------|--------------|--------------|
| 9-1-1 Network | General Fund | \$ 59,611 |

Interfund balances are used to account for pooled cash transactions.

E. Long-term obligations

The following is a summary of long-term obligation transactions of the Council for the year ended December 31, 2022:

| | Balances 01-01-2022 | Additions | Reductions | Balances 12-31-2022 | Due in (1) Year |
|-----------------------------|------------------------|-------------------|-------------------|------------------------|--------------------|
| Compensated absences | <u>\$ 99,061</u> | <u>\$105,552</u> | <u>\$112,043</u> | <u>\$ 92,570</u> | <u>\$_57,108</u> |
| Leases Payable | <u>\$153,749</u> | | 92,486_ | 61,263 | 51,448 |
| Total Long-term obligations | <u>\$ 252,810</u> | <u>\$ 105,552</u> | <u>\$ 204,529</u> | <u>\$ 153,833</u> | <u>\$ 108,556</u> |

The general fund pays for compensated absences. The special revenue fund reimburses compensated absences via a pre-determined release time rate charge.

Leases Payable

The Council entered into a five-year lease agreement as lessee for the use of a postage meter equipment. An initial lease liability was recorded in the amount of \$10,598. As of December 31, 2022, the value of the lease liability was \$4,526. The Council is required to make monthly principal and interest payments of \$198. The lease has an estimated interest rate of 4.75%. The equipment has a five-year estimated useful life. The value of the right-to-use leased asset as of December 31, 2022, was \$4,226 and had accumulated amortization of \$6,372.

The future principal and interest lease payments as of December 31, 2022, were as follows:

| Fiscal Year Ending | | | |
|--------------------|-----------|---------------|----------|
| December 31, | Principal | Interest | <u> </u> |
| 2023 | 2,209 | 167 | 2,376 |
| 2024 | 2,317 | 59 | 2,376 |
| Totals | \$ 4,526 | <u>\$ 226</u> | \$ 4,752 |

Notes to the Financial Statements

December 31, 2022

The Council entered into a two and a half-year lease agreement as lessee for the use of a building for office space. An initial lease liability was recorded in the amount of \$290,799. As of December 31, 2022, the value of the lease liability was \$43,155. The Council is required to make monthly principal and interest payments of \$7,250. The lease has an estimated interest rate of 2.72%. The building has a two and a half year estimated useful life which is equivalent to the lease term. The value of the right-to-use leased asset as of December 31, 2022, was \$41,535 and had accumulated amortization of \$249,264.

The future principal and interest lease payments as of December 31, 2022, were as follows:

| Fiscal Year Ending | | | |
|--------------------|------------------|---------------|------------------|
| December 31, | Principal | Interest | <u> </u> |
| \$ 2023 | <u>\$ 43,155</u> | <u>\$ 345</u> | <u>\$ 43,500</u> |

The Council entered into a five-year lease agreement as lessee for the use of a copier. An initial lease liability was recorded in the amount of \$29,456. As of December 31, 2022, the value of the lease liability was \$13,582. The Council is required to make monthly principal and interest payments of \$550. The lease has an estimated interest rate of 4.75%. The copier has a five-year estimated useful life. The value of the right-to-use leased asset as of December 31, 2022, was \$12,762 and had accumulated amortization of \$16,694.

The future principal and interest lease payments as of December 31, 2022, were as follows:

| Fiscal Year Ending | | | |
|--------------------|-----------------|---------------|-----------------|
| December 31, | Principal | Interest | <u> </u> |
| 2023 | \$ 6,084 | \$ 516 | \$ 6,600 |
| 2024 | 6,403 | 197 | 6,600 |
| 2025 | 1,095 | 5 | 1,100 |
| Totals | <u>\$13,582</u> | <u>\$ 718</u> | <u>\$14,300</u> |

IV. Other information

A. Risk management

The Council is exposed to various risks of loss related to tort; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by an intergovernmental risk pool and commercial insurance purchased from independent third parties. The Council is an employer member of the Texas Municipal League (TML) Intergovernmental Risk Pool, self-insurance funds in which contributions from members are used to pay covered losses.

Notes to the Financial Statements

December 31, 2022

The TML Intergovernmental Risk Pool was established to formulate, develop, and administer a program of self-insurance funds for political subdivisions of the State of Texas to obtain lower costs for workers' compensation, property, and liability coverage. Annual contribution rates are determined by the TML Intergovernmental Risk Pool Board of Directors. The Council pays annual premiums to TML Intergovernmental Risk Pool for workers' compensation, property, and liability coverage. TML Intergovernmental Risk Pool for workers' compensation, property, and liability coverage. TML Intergovernmental Risk Pool will provide coverage to the Council up to the fund's limited liability amounts, \$2,000,000 for general liability and error and omissions, \$1,025,000 for automobile liability, actual cash value for auto physical damage, \$2,000,000 for cyber liability and data breach, and \$1,405,000 for flood and earthquake and real and personal property. The Texas Windstorm Insurance Association will provide coverage to the Council up to the limited liability of \$895,000 for windstorm and hail. There is no limited liability amount for workers' compensation coverage. The Council had no significant reductions in insurance coverage as compared to its previous fiscal year and no settlement amounts that exceeded insurance coverage for each of its past three fiscal years.

B. Allocation of personnel costs and indirect costs

Salaries and related benefits are charged as either direct or indirect costs, based on actual time spent. Indirect costs are allocated to activities based on an indirect cost plan, which utilizes direct salaries and release time charges as the base for allocation.

C. Central Service Cost Allocation Plan (CSCAP)

The Central Service Cost Allocation Plan fairly allocates to the grants the administrative and finance personnel costs associated with the processing of accounts payable, accounts receivable, payroll processing, management advisory services, reproduction/mail outs, and other costs. The allocation bases used are number of employees, number of accounts payable invoices processed and direct hours.

D. Contingent liabilities

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability. The amount, if any, of expenditures, which may be disallowed by the grantor, cannot be determined at this time although the Council expects such amounts, if any, to be immaterial.

E. Retirement system and pension plans

Coastal Bend Council of Governments Money Purchase Retirement Plan

The Board of Directors adopted the Coastal Bend Council of Governments Money Purchase Retirement Plan (the 401 Qualified Plan). The plan is a defined contribution money purchase retirement plan. The Council's administrator of the 401 Qualified Plan is Mission Square Retirement. The Council's fiduciary responsibility under the plan is to remit employer and employee contributions to Mission Square Retirement monthly on the 15th day.

Notes to the Financial Statements

December 31, 2022

The Council and employee's obligation to contribute to the 401 Qualified Plan is based on the Coastal Bend Council of Governments Money Purchase Retirement Plan agreement adopted by the Board of Directors. All employees, except for those part-time employees working less than 30 hours per week, with six months of service or more are eligible to participate in the 401 Qualified Plan. All eligible employees must participate in the 401 Qualified Plan. The Council is required to contribute on behalf of each participant 10% of earnings and participants are required to contribute 5% of earnings. Participants may retire beginning at age 55. Upon retirement date, all amounts credited to such participant's account shall become distributable. The 401 Qualified Plan also provides death and disability benefits. A participant is fully vested after 7 years of service for retirement benefits; however, accumulated earnings must remain in the 401 Qualified Plan. The Board of Directors established the provisions and contribution requirements of the 401 Qualified Plan and the Board approves any subsequent amendments. The Council's total payroll for January 1, through December 31, 2022 was \$1,871,632 and its contribution was based on a covered payroll of \$1,639,770. The Council and employees made the required contribution from January 1 through December 31, 2022 amounting to \$163,977 for the Council (10% of covered payroll) and \$81,989 for employees (5% of covered payroll).

Deferred Compensation Plan and Trust Mission Square Retirement Plan

The Board of Directors established a deferred compensation plan administered by Mission Square Retirement and governed by Section 457 of the Internal Revenue Code. All assets are held in trust for the exclusive benefit of plan participants and their beneficiaries, and the assets cannot be diverted to any other purpose. The Council's fiduciary responsibility under the Mission Square Retirement Plan is to remit employee contributions to Mission Square Retirement on a regular basis. The Council has no legal access to the plan assets. The plan assets are not reported on the balance sheet because the assets are held in a custodial account due to a change in tax law.

STATISTICAL SECTION

This part of the Coastal Bend Council of Governments' comprehensive annual financial report represents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health.

| Cont | ents | Page |
|------|--|---------|
| Fina | ncial Trends | 78-87 |
| | These schedules contain trend information to help the reader understand how the government's financial performance and well-being have changed over time. | |
| Reve | enue Capacity | 88-94 |
| | These schedules contain information to help the reader assess the government's most significant revenue source, federal and state grants. | |
| Dem | ographic and Economic Information | 96-98 |
| | These schedules offer demographic and economic indicators to help the reader understand the environment within which the government's financial activities take place. | |
| Oper | rating Information | 100-109 |
| | These schedules contain service data to help the reader understand how the information in the government's financial report relates to the services the government provides and the activities it performs. | |

Sources: Unless otherwise noted, the information in these schedules is derived from comprehensive annual financial reports for the relevant year.

(3) 9-1-1 Intrado Database

current year 9-1-1 Emergency Communications Number of calls are lower from prior years because

ECatS (Emergency Call Tracking System) implemented in 2016 by AT&T and CSEC,

delivers quarterly performance reports that eliminate redundancy caused

by including rebid calls.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS AND THE STATE OF TEXAS UNIFORM GRANT MANAGEMENT STANDARDS

June 30, 2023

Governing Board of the Coastal Bend Council of Governments

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, and the State of Texas *Uniform Grant Management Standards*, the financial statements of the governmental activities and each major fund of the Coastal Bend Council of Governments (the Council), as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the Council's basic financial statements, and have issued our report thereon dated June 30, 2023.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Council's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Council's internal control. Accordingly, we do not express an opinion on the effectiveness of the Council's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Council's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* or the State of Texas *Uniform Grant Management Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE AND THE STATE OF TEXAS UNIFORM GRANT MANAGEMENT STANDARDS

June 30, 2023

Governing Board of the Coastal Bend Council of Governments

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited the Coastal Bend Council of Governments' (the Council) compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* and the State of Texas *Uniform Grant Management Standards* that could have a direct and material effect on each of the Council's major federal and state programs for the year ended December 31, 2022. The Council's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the Council complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended December 31, 2022.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and the State of Texas Uniform Grant Management Standards. Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the Council and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal and state program. Our audit does not provide a legal determination of the Council's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the Council's federal and state programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Council's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, the Uniform Guidance, and the State of Texas *Uniform Grant Management Standard* will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than from that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgement made by a reasonable user of the report on compliance about the Council's compliance with the requirements of each major federal and state program as a whole.

In performing an audit in accordance with generally accepted auditing standards, Government Auditing Standards, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Council's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the Council's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the Council's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance is a deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance compliance with a type of compliance is a deficiency in internal control over compliance with a type of compliance is a deficiency of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal weaknesses.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and the State of Texas Uniform Grant Management Standards. Accordingly, this report is not suitable for any other purpose.

Collin Johnson & Woods

SCHEDULE OF FINDINGS AND QUESTIONED COSTS

YEAR ENDED DECEMBER 31, 2022

I. Summary of Audit Results:

- 1. The auditor's report expresses an unmodified opinion on the basic financial statements of the Coastal Bend Council of Governments.
- 2. No significant deficiencies or material weaknesses relating to the audit of the financial statements are reported in the "Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards* and the State of Texas Uniform Grant Management Standards."
- 3. No instances of noncompliance material to the financial statements of the Coastal Bend Council of Governments, which would be required to be reported in accordance with *Government Auditing Standards* or the State of Texas Uniform Grant Management Standards, were disclosed during the audit.
- 4. No significant deficiencies or material weaknesses relating to the audit of the major federal and state award programs are reported in the "Independent Auditor's Report on Compliance For Each Major Program and on Internal Control Over Compliance Required by the Uniform Guidance and the State of Texas Uniform Grant Management Standards."
- 5. The auditor's report on compliance for major Federal and State award programs for the Coastal Bend Council of Governments expresses an unmodified opinion on all major programs.
- 6. No audit findings that are required to be reported in accordance with Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) are reported in this schedule.
- 7. The programs tested as major programs included:

Federal Programs:

Department of Health and Human Services Aging Cluster:

- 93.044 Special Programs for the Aging Title III, Part B, Grants for Supportive Services and Senior Centers
- 93.045 Special Programs for the Aging Title III, Part C, Nutrition Services
- 93.053 Nutrition Services Incentive Program

U.S. Department of Homeland Security

97.067 – Homeland Security Grant Program

State Program:

Commission on State Emergency Communications:

9-1-1 Service Fees

- 8. The dollar threshold used to distinguish between Type A and Type B programs was \$750,000 for federal and \$300,000 for state.
- 9. The Council was determined to be a low-risk auditee.
- II. Findings related to the financial statements None
- III. Findings and questioned costs for Federal and State awards None

.

IV. Prior year audit findings requiring corrective action - None

Notes to Schedule of Expenditures of Federal/State Awards

Year Ended December 31, 2022

- (1)General - The accompanying Schedule of Expenditures of Federal/State Awards (Schedule) presents the activity of all the Federal and State awards of the Coastal Bend Council of Governments (Council). The Council's reporting entity is defined in Note I A. to the Council's basic financial statements. All federal awards received directly from Federal agencies and state and federal awards passed through state agencies are included on the Schedule.
- (2)Basis of Accounting - The accompanying Schedule is presented using the modified accrual basis of accounting, which is described in Note I C. to the Council's basic financial statements.
- (3) Relationship to Basic Financial Statements - Federal and State awards expenditures are reported in the Council's basic financial statements as follows:

| Total Governmental Fund expenditures | | \$ 7,206,164 |
|--------------------------------------|--|---------------------|
| Less: | Governmental Fund non-grant general government expenditures | (6,066) |
| | Grant expenditures funded with Council resources | (38,257) |
| | Supportive services expenditures funded with Council resources | (47,917) |
| Grant expenditures per Schedule | | <u>\$ 7,113,924</u> |

- (4) Relationship to Federal Financial Status Reports - Amounts reported on the Schedule may not agree with the amounts reported in the related Federal/State financial status reports filed with grantor agencies because of the effect of accruals made in the Schedule.
- (5) Major Programs - Programs referenced to Note (5) on the accompanying Schedule represent major federal and state award programs.
- The Council has not elected to use the 10-percent de minimis indirect cost rate allowed under (6) the Uniform Guidance.
