## Active Attack Incident Management (AAIM)

**There is no charge to officers or agencies for this training. It is funded through state and federal grants.**

**Time:** 1 days (8 hour)

**Class Size:** 150

**Prerequisite:** Attendance is open to Law Enforcement, Fire, EMS, Emergency Management, Schools, and Public Officials

**Recommended Equipment:** Note Taking Materials

This class is provided free of charge. Participants should register on the ALERRT web site at [www.alerrt.org](http://www.alerrt.org). The course number is #28276

**Dates:** \_\_\_\_\_

**Location:** \_\_\_\_\_

**Point of Contact:** \_\_\_\_\_

The ALERRT Center in conjunction with the Corpus Christi Fire Department will be hosting a one-day, 8 hour Active Attack Incident Management (AAIM) course. By leveraging technology and incorporating interactive, hands-on tabletop exercises, the AAIM course breaks down active attack incidents into 3 distinct operational phases with key benchmarks for each. Collaboration across agencies and disciplines, improves threat timelines, accelerates medical intervention, and ultimately increases victim survivability through effective command and control. Rooted in the principles of the National Incident Management System (NIMS) and Tactical Emergency Casualty Care (TECC), the curriculum provides a solid foundation for effective and scalable incident management. Our mission centers around the principles of — Stop the Killing, Stop the Dying, and Rapid Casualty Evacuation.

Participation of Law Enforcement, Fire, EMS, Emergency Management, Schools, and Public Officials is encouraged. Together we develop relationships and an understanding of each other's needs and capabilities.
